Behavior, Design, and Translation 8. Big Data, Measurement, and Metrics 9. VCs and Other Investors 10. Innovation --- Health matters. When you have your health, you have everything, wrote memoirist Augusten Burroughs. When you do not have your health, nothing else matters at all. Health can also be very expensive, and reducing costs isn't easy, since as Stanford health policy expert Victor Fuchs famously observed, Every dollar of waste is income to some individual or organization. One key challenge healthcare faces today is figuring out how to maintain health and deliver better care for patients while somehow keeping in check the overall costs associated with these activities. The good news is that there is now the massive potential for healthcare transformation. Data-driven analysis has called into question many traditional healthcare assumptions, and permits us to view the challenges in a fresh light. For instance, there seems to be little correlation between healthcare cost and quality-and great care can be delivered at lower cost if we can improve the alignment of incentives among patients, payers, and providers. Key drivers of healthcare change are the intense economic pressure of healthcare costs, the impact-to be determined-associated with the implementation of the Affordable Care Act, and the advent of inexpensive and widely accessible technologies; together these have created a platform for industry transformation the likes of which has not been seen since the dawn of modern surgery. And it's about time. Technology has been used to optimize and redefine virtually...
